Stern Severe Style

The Baroness pays homage to the "sternest place on earth"...

When told she was going to have to make a second formal appearance at "HappyLand", Agnes was aghast they would ask anyone of her Royal standing to stoop to the concept of a commoner's amusement park.

"Why do they need a park for that? Can't they just go to their private gardens for amusement like every one else?"

When her best court advisors suggested she should smile and enjoy herself, she arched a brow and gave this icy reply:

*"This **Baroness** does not smile! I'm **Baroness Agnes Von Weiss...not Smiling Agnes the happy kellnerin...carrying your bierkrüge!...there will never be Smagnes!**"*

Still, she realized she could show the people that true beauty is power...and power does not beg. So at the appointed hour, she had her stylists create a new coiffure that subtly gave a knowing wink and a formal frown at "happyland."

"Who wants to style themselves after a rat anyway?"
